EXPERIENCE

HOBBIES LOBBIES

Bangalore, Karnataka

Software Developer

Jul, 2023 - Sep, 2024

- Led **full-stack development** of web applications, leveraging **Angular**, **HTML**, **CSS**, **Tailwind CSS** (frontend) and **NestJS**, **MySQL** (backend) for high performance.
- Engineered **responsive**, accessible **UIs** and integrated **APIs** while optimizing performance and **resolving issues** to ensure seamless data flow and system stability.

Projects at Hobbies Lobbies

Enrich Learn (Confidential EdTech Application)

- Contributed to the **full-stack development** of **Enrich Learn**, a confidential, multi-role EdTech platform.
- Engineered **Angular** components and **responsive UI layouts** for five distinct user roles, integrating **NestJS** and **MySQL** for scalable **APIs**, secure data layers, and access control.

Client Project: Rent Fatafat

- Designed** and **enhanced** a responsive, **mobile-first** layout for RentFatafat.com using **HTML**, **CSS**, and **media queries**, creating custom breakpoints for optimal UI across devices.
- Implemented form submission logic** for contact emails, **configured social integration**, and performed **SEO optimizations**, connecting frontend sections to backend processing.

Enrich Learn Website – Blog UI Development

- Designed** and **implemented** the **EnrichLearn.com blog page**, utilizing **HTML**, **CSS**, and **JavaScript** for dynamic UI rendering and API-driven content display to ensure visual consistency and an interactive user experience.

Personal Projects

Resume Builder Web App

- Developed** an interactive **resume builder platform** using **Angular**, enabling dynamic layout creation, section customization, and **PDF/image export** functionality.
- Engineered** a **responsive layout editor** simulating A4 sheet structure with custom backgrounds and grid alignment, deployed on **GitHub Pages**.

Portfolio Website

- **Designed** and **developed** a personal **portfolio website** using **Angular** and **Tailwind CSS**, effectively showcasing professional background, resume, and projects.
- **Engineered** a **responsive, modular UI** with interactive page transitions and accessible sections (About, Resume, Projects, Contact), deployed for live access on **GitHub Pages**.

EDUCATION
